Aarvi Collection Website - Process Sheet

Client Details, Interview and Sitemap

IDENTITY '26 | Dezyne E'cole College

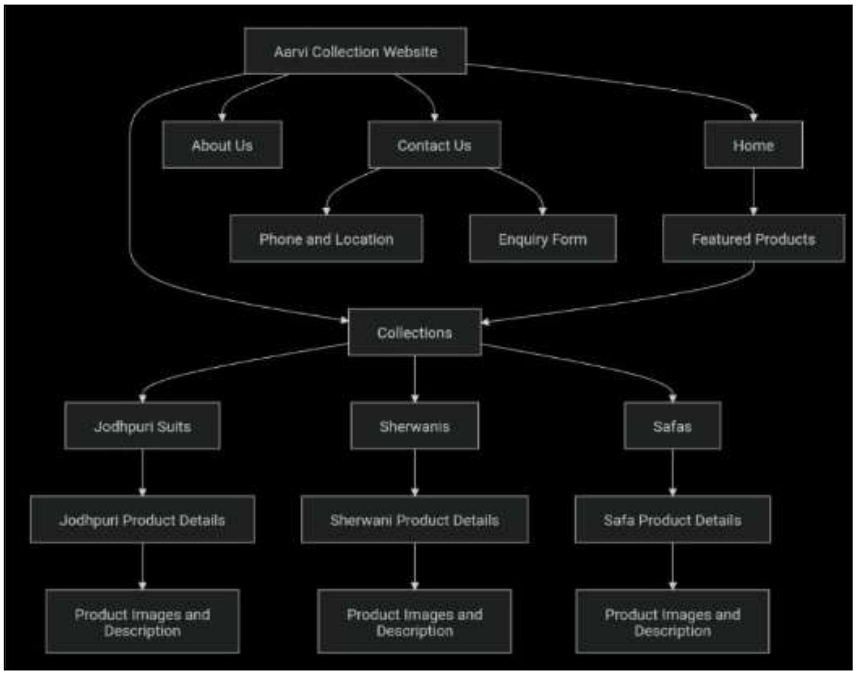

1. Client details

Business name	Aarvi Collection
Owner	Deependra Singh Rathore
Type of business	Traditional Rajasthani ethnic wear and men's clothing store
Address	Ashok Marg, Ajmer, Rajasthan, India
Phone	7822827094
Opening hours	10 AM to 9 PM
Products	Jodhpuri suits, sherwanis, safas and traditional Rajasthani men's wear
Main goal of website	To showcase the shop's collection, display product images and descriptions, introduce the business, and help customers explore products and contact the shop easily.
Target audience	People in Ajmer and nearby areas, wedding shoppers, and customers interested in traditional Rajasthani and ethnic men's wear.
Prepared by	Somendra Singh Sisodia and Lakshyajeet Singh Bhati

2. Five questions I asked the client and their answers

No.	Question	Client's answer	Problem found
1	**How do customers currently discover and contact your business?**	Mainly through the physical shop, personal recommendations and social media. Without a website they have to call or visit to learn about collections.	No single central online place to explore the business and its products.
2	**What difficulties do customers face when looking for your products?**	They cannot explore the full collection remotely. They have to visit or contact the shop to ask about designs, colours and availability.	Customers cannot browse the collection online before visiting the shop.
3	**What is the main reason you do not have a website yet?**	The business has relied on its physical store and existing customers. Limited technical knowledge, time, or unsure how a website helps.	No dedicated online presence yet.
4	**What information would you like customers to access online?**	Jodhpuri suits, sherwanis, safas and other traditional wear, with images, designs, colours, descriptions, shop information and contact details in one place.	Customers need an organised way to explore products and shop information.
5	**What would you like your website to achieve for your business?**	Present the shop professionally, showcase collections, help customers discover products, make enquiries easy, and work well on mobile and computer.	Needs a professional, accessible online presence that supports discovery and enquiries.

PERMISSION LETTER FOR WEBSITE DEVELOPMENT

I, the owner of Aarvi Collection, hereby grant permission to Somendra SinghSisodia and Lakshyajeet Singh Bhati develop a website for my shop, Aarvi Collection, as part of their college project.

The website is being developed to showcase our products, including Jodhpuri suits, Sherwanis, Safas, and other traditional Rajasthani wear. I give my consent for them to use the shop's name, product photographs, and relevant business information for the development and presentation of this website.

I appreciate their efforts and wish them success in their project.

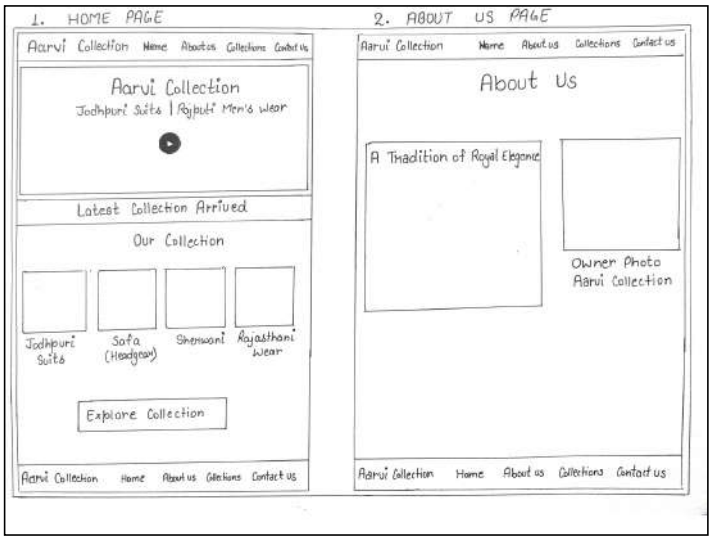

Owner's Name: Deependra Singh Rathore

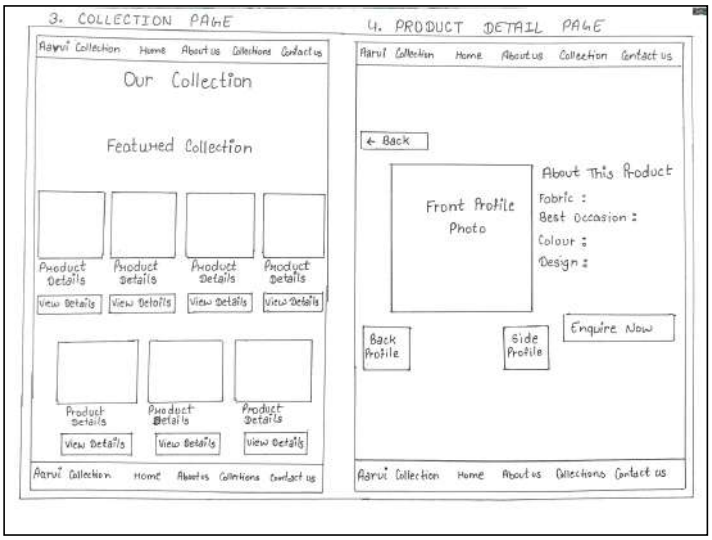

Shop Name: Aarvi Collection

Permission note from the owner (WhatsApp)

4. Hand-drawn wireframes

Pages sketched

1. Home: hero video, latest collection, four collection cards, Explore Collection button.
2. About Us: shop story and owner photo.
3. Collection: featured products with View Details buttons.
4. Product Detail: photo, fabric, occasion, colour, design, Enquire Now.
5. Contact: location, phone, opening hours and enquiry form.

5. Colour and font choices, with reasons

Royal Navy Blue
#101D35
Header, footer, cards. Royalty, trust, professional look.

Deep Dark Navy
#080D1A
Page and hero backgrounds. Depth; makes gold stand out.

Gold
#D4AF37
H1, logo, buttons, borders. Luxury and craftsmanship.

Soft Gold
#E0BF68
H2, taglines, hover. Refined, heritage feel.

Warm Beige
#F5E6C8
Body text on dark. Warm, readable, balances dark colours.

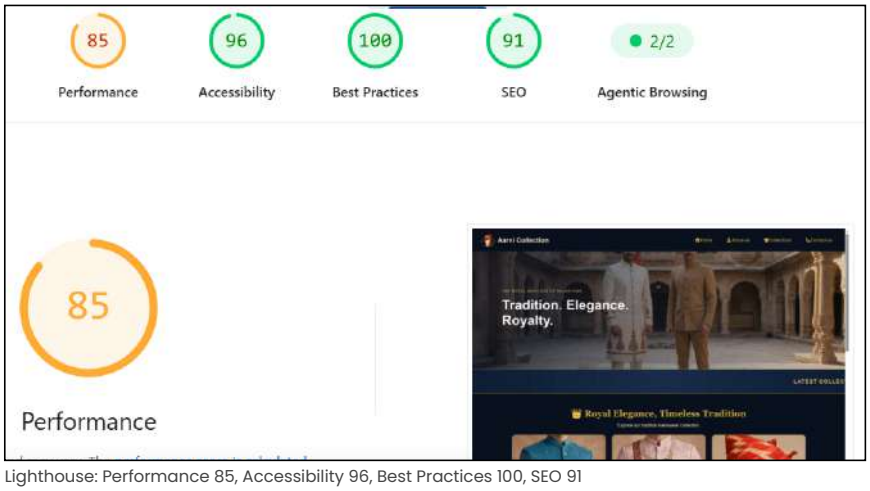

Headings: Playfair Display
A classic serif with an elegant, formal look that suits a traditional royal brand.

Body text: Poppins
A clean sans-serif that stays easy to read on mobile and on dark backgrounds.

6. Testing: HTML validator and Lighthouse

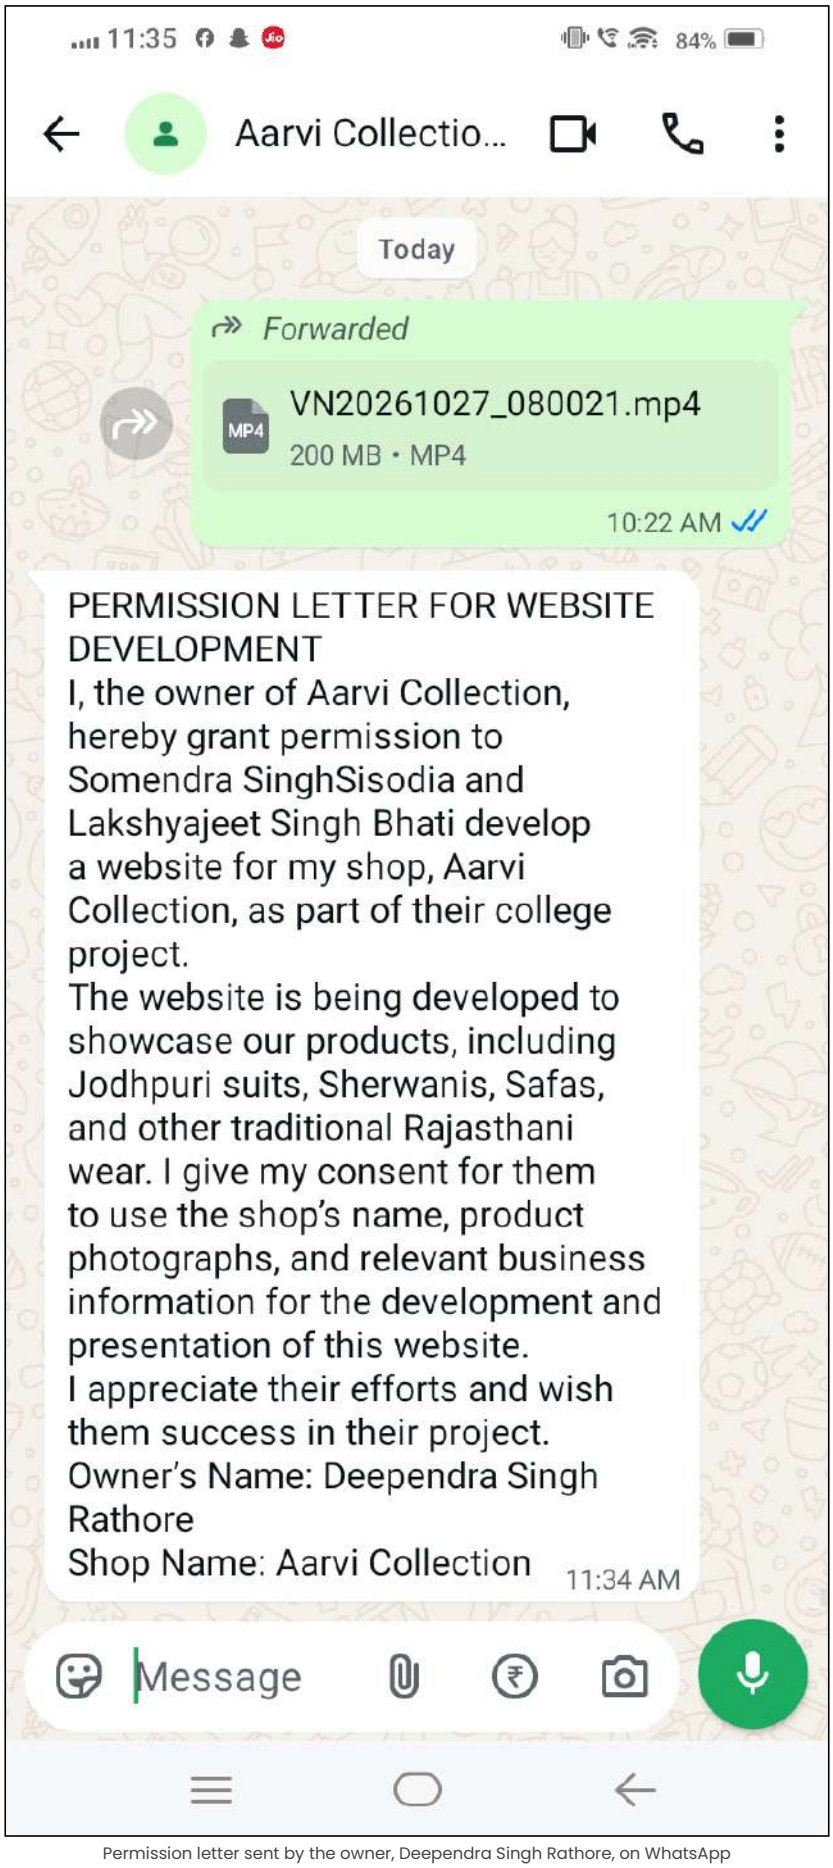

W3C HTML validator result

Lighthouse: Performance 85, Accessibility 96, Best Practices 100, SEO 91
